

## The So Called Marketplace Fairness Act

On May 6 2013 The Senate voted on this and passed it. I don't know about you but when I see our Government use the term fairness a red flag pops up for me because nothing they do is fair to "We The People". To me this Internet Sales Tax will do a couple of major things. First it will kill even more jobs by stopping people like you and me from starting a little internet business to earn a living which we would pay income tax on. It helps the large stores put their competition out of business because of the cost of compliance and I don't believe the states can handle the job which opens the door for the Fed's to inject themselves into it giving them even more control over our lives.

I say they have too much power and control now. The politicians who sold us out need to go and I hate to say it but some I have supported in the past. No More. The names will be on this list and the co-sponsors will be indicated also.

If they voted yes "Vote Them Out" If they also Co-sponsored the bill it's even more critical to get them out of office.

If they voted no then they have some support from me.

Bill was sponsored by [Sen Enzi, Michael B.](#) [WY] (introduced 4/16/2013)

### Co-sponsors

<a href="#">Sen Alexander, Lamar</a> [TN] - 4/16/2013	<a href="#">Sen Johnson, Tim</a> [SD] - 4/18/2013
